NPIC/TDS/EP/556-67
5 December 1967

MEMORANDUM FOR: Chief, Development Staff, TDS

SUBJECT: Test Report, Wide-Print Straightener

1. Preliminary copy of Test Report on the Wide-Print Straightener attached for your project monitors use. It follows the test plan previously arrived at and coordinated with DS.

2. Figures 5, 6, and 7 photos did not reproduce very well for this copy of the report. Photos are available if needed for clarification.

3. We will keep the machine in its present condition and configuration pending the decision of further disposition. Should it be accepted as is we recommend discussion between EPS and DS personnel concerning possible improvements and in-house modification.

4. The test engineer, is available to discuss the report with the project monitor.
